Hope you enjoy this 'Ship's History Page'. As always, if you have any additional information, suggestions or corrections, please let me know.

Note 1: While due diligence has been applied in the research of this information, responsibility for any errors is the ultimate responsibility of the end-user.

Note 2: Information has been obtained from various sources to enhance the history of Sun Ship and where possible, sources have been identified.

Note 3: Text added by SSHS to the review will be bordered with parentheses.

Note 4: If you find this information interesting, I highly recommend obtaining a copy of this source book to get the 'rest of the story'

Note 5: A series of three 'periods', before or after transcribed text indicates that not all the text was transcribed to the review.

Thank You,

[5. S.S. 'Atlantic Refiner' Tanker Model Donation](#)

5.1: The Sun Ship Historical Society was contacted by Pamela Croasdale in October of 2023 to see if we would be interested in acquiring a model of a T2-Sun Ship built tanker that her father arranged to have built.

Partial text from Pamela's donation letter read:

"I have a beautiful ship – It is the **Atlantic Refiner**. My father sailed on this, the (**Atlantic Dealer**), the (**Atlantic Trader**) and **the EJ Henry**, but the (**Atlantic Refiner**) was his favorite ship.

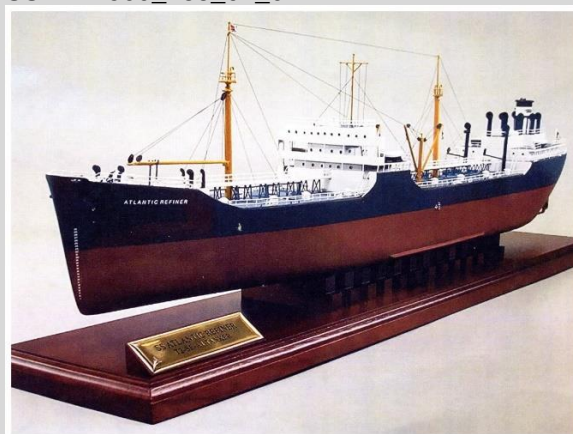

Information about this ship is below. My father had this built."

As previously stated, her father, Robert M. Croasdale started as a seaman for the Atlantic Refining Company in 1952. During that time, he had worked in ship's engine rooms. He went into the Army c:1955, returning to Atlantic Refining from 1958-1960.

Three of the ships that Robert had worked on were built by Sun Ship included ; '**Atlantic Refiner**' Hull-488, '**Atlantic Trader**' Hull-475 and the '**E.J. Henry**' Hull-181.

5.2: Here are photographs of the spectacular 29" model with a close-up of the brass-nametag S S '**Atlantic Refiner**'.

6. SSHS Note:

The Sun Ship Historical Society is extremely grateful for the donation by Pamela Croasdale and family of her father's 'Atlantic Refiner' model and related artifacts.

While the main focus of our website is Sun Ship, I believe we do not lose sight on what happens to our hard work after delivery and how dependent on others that is. I hope these borrowed words reflect our gratitude towards those who offer that care.

"Man-the-BUILDER has toiled for days, months or even years to shape this new and shining tool. Now it is to be committed to the sea, to a hidden destiny; and Man-the-Seafarer must put forth in her to test the mystery of oceans and to give her the life for which she has been cunning made."
